SUGAR BEET WINS AND HARMONY REIGNS.

The President Takes His Defeat With Good Grace—Spooner Bill to Be Reported by Committee.

WASHINGTON, June 17.—[Exclusive Dispatch.] There is complete harmony in the Republican party in Congress tonight, and that harmony will be ratified at the caucus of Republican Senators tomorrow evening. In addition to there being harmony, it is assured that the party will continue, for some time at least, to follow the good old protection road, and the great American sugar beet industry will be able to continue its growth and development without any of the complications which have been suggested by the tariff commission.

When it became apparent this morning that the reciprocity bill was defeated, no fewer than a dozen Senators who have been upon the reciprocity side came over to the beet-sugar side and lined up for protection. They seemed glad beyond expression that this difficult subject had been disposed of in some fashion. What the President will do now is not known. He took his defeat with good grace, remarking that his great fight had been worked out in good humor all along, and that he has done only what he conceived to be his duty. But he did not tell his callers whether he would accept the Senate suggestion and negotiate a reciprocity treaty with Cuba.

TEXT OF SPOONER BILL.
WASHINGTON, June 17.—The Republican members of the Senate Committee on Cuban Relations today finally agreed to accept the Spooner bill, providing for reciprocity with Cuba, and decided to ask that a conference of Republican Senators be called for tomorrow night to consider its terms. This conclusion was reached at a meeting of the Republican members of the committee today. After the meeting adjourned, the text of the bill was made public. It is a substitute for the House bill, and is as follows: "When the republic of Cuba shall have enacted a law or laws establishing preferential rates of customs duties on any or all articles, the growth, production or manufacture of the United States, the Senate shall, in the opinion of the people of the United States, constitute a satisfactory equivalent of the reduction hereinafter provided in the rate of duties upon articles, the growth, production or manufacture of Cuba, to the duty of the United States."

some renewal today of the talk of a treaty with Cuba, and it was stated that it would probably be sent to the Senate before adjournment. It is probable, therefore, that at tomorrow's conference the beet-sugar Republicans will be asked to say whether they would support a treaty on the lines of the Spooner bill.

The impression is strong that legislation, either in the form of an act or a treaty, is quite out of the question for this session. Some of the reciprocity leaders freely admit this, and while others more hopeful do not go so far, even they admit that the chances are doubtful.

FIFTY-SEVENTH CONGRESS.
REGULAR SESSION.
[BY THE NEW ASSOCIATED PRESS.—A.M.]
WASHINGTON, June 17.—SENATE.—When the Senate convened at 11 o'clock today, Mr. Quay of Pennsylvania gave notice that, Thursday, at the conclusion of the voting on the Isthmian Canal bill, he would move to discharge the Committee on Territories from further consideration of the bill providing for the admission as States of the Territories of Oklahoma, New Mexico and Arizona.

Quay Mad Because Statehood Bill Has Not Been Reported.

WASHINGTON, June 17.—[Exclusive Dispatch.] Senator Quay, of Pennsylvania, is a member of the Senate Committee on Territories, and when that committee decided, a few days ago, not to report the bill, Mr. Quay wants the bill passed at this session, and the action of the committee made him so angry that today he gave notice in the Senate that, immediately after the canal bill has been voted upon, he will move to have the Territories Committee discharged from consideration of the bill. That would bring the Statehood bill before the Senate and make its consideration and passage possible.

It takes a majority of the Senate to discharge a committee from consideration of a bill. Senator Quay says he has fifty Senators who will stand with him when he makes his motion. He says the President is with him in pressing the Statehood bill for Arizona, New Mexico and Oklahoma now. Delegate Flynn of Oklahoma says that he knows to a certainty that a majority of the Senate favors immediate consideration of the bill giving Statehood to all three Territories.

Senator Bard, who is also a member of the Territories Committee, said tonight that the Senate leaders felt no alarm over Mr. Quay's notice, believing that the Senate will refuse to agree to the motion. Other Republican Senators express the same views.

Senator Quay's interest in the matter seems to come from the fact that he has a friend in New Mexico named "Bull" Andrews, and Andrews wants to get into the United States Senate. Quay wants him there.

INTERESTING FIGURES ON BOER FORCES.
STARTED THE WAR WITH FIFTY THOUSAND MEN.

Only Had Fifty-three Killed at Spion Kop—Frequently Crossed the Blockhouse Lines at Night—Surrenders in the Transvaal Complete.

[BY THE NEW ASSOCIATED PRESS.—A.M.]
LONDON, June 17.—[By Atlantic Cable.] Commandant Kemp, Gen. Delarey's lieutenant, who surrendered at Mafeking June 11th, has arrived here. In an interview today he gave some interesting figures regarding the war. He said that about fifty thousand Boers were in the field at the outset, and that only 1500 out of 5000 men available fought at Colenso, where the Boers were not heavy. At Spion Kop, where the British suffered so much, the Boers only had fifty-three men killed. In one of the fights outside Ladysmith the Boers had fifty men killed and over one hundred wounded. Their losses were heavier at Brankpan and Vlakfontein.

The Boers were often worried by the British sharpshooters and light guns, but when intrenched they did not fear the shells. Members of the Boer forces have not been fully recovered.

SURRENDERS COMPLETE.
[BY THE NEW ASSOCIATED PRESS.—A.M.]
LONDON, June 17.—A dispatch from Lord Kitchener, dated Pretoria, Monday, June 16, announces the additional surrender of 915 Boers. This completes the surrenders in the Transvaal. Under date of June 17, Lord Kitchener announces that 700 Boers surrendered at Bloemfontein yesterday, and all the surrenders in the Transvaal and Orange River colonies are now complete. In the Transvaal 11,255 men surrendered and 18,112 rifles were given up, while in the Orange River Colony 1335 men surrendered and 1230 rifles were turned in. The figures for Cape Colony have not been fully received.

LOTTERY SCHEME.
FOR BENEFIT OF BOERS.
[BY DIRECT WIRE TO THE TIMES.]
BRUSSELS, June 17.—[Exclusive Dispatch.] It is reported here that Retta, formerly State Secretary of the Transvaal, and Gen. Lucas Meyer, the well-known Boer leader, will make a tour of the United States with the object of collecting money for the benefit of poor Boer families by means of a great international lottery.

Gen. De Wet, it is said, will visit Germany and Austria in connection with the scheme, while Gen. Botha, ex-commander-in-chief of the Boer army, will visit Belgium, Holland and France.

Gen. Botha will also be received in audience by the King of England.

The total number of Boers who surrendered, together with those who were captured held prisoners in refugee camps or were killed or wounded or reported as missing, show that the Boer army during the entire war approximated 80,000 men of all ages, including the Cape Dutch.

DAMAGED BY QUAKES.
Roadbed of the Railway Out of Guatemala City Badly Out of Shape—Shocks in Central Provinces.

[BY DIRECT WIRE TO THE TIMES.]
NEW ORLEANS, June 17.—[Exclusive Dispatch.] The British steamer Anselm from Puerto Barrios, Guatemala, brought a number of passengers from Guatemala City, including H. M. Keith, president of the United Fruit Company, or fruit trust. Passengers who came from Guatemala city over the railroad report it very badly damaged by the continued earthquakes that have prevailed there. The roadbed has been badly injured, and the train had to go very slowly the entire distance and even then left the track several times. At River Mortagua, the bridge had been destroyed and passengers had to cross the river in boats. From Port Esguero, the passengers themselves, twenty in number, took charge of the train, operated it and succeeded in reaching Puerto Barrios in safety.

No damage whatever was done by the earthquake on the Atlantic coast. Earthquakes are still daily in the central portion of the republic, five shocks, the most severe known for several weeks, having been felt May 30 between 3:30 o'clock and 4:30 o'clock p.m.

Fierce Contest Between Hopkins and Harrison Won by Former.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, June 17.—[Exclusive Dispatch.] Overshadowing in State interest its total elimination of the silver issue in the platform, and its failure to mention even once the name of Bryan, was the action of the Democratic State Convention today in ruling Mayor Harrison out of State politics and disposing of him as a Presidential or Vice-Presidential possibility.

The latter result was accomplished when the convention, over the vigorous opposition of Harrison, elected former Mayor John P. Hopkins, member at large of the State Committee by the decisive vote of 724 to 623, and afterward, when the new State Committee by a vote of 13 to 10 re-elected Hopkins chairman of the State Committee.

On the vote for member at large even the Cook county delegation, which was supposed to be by a large majority at the back of Harrison, showed a majority of only 42 against Hopkins. Mayor Harrison came here expressly by his own admission to humiliate Hopkins and keep him off the State Committee. His utter failure to do so means that his influence in politics is now limited to precinct and ward lines, and that even here his power is on the wane.

CONVENTION PROCEEDINGS.

(BY THE NEW ASSOCIATED PRESS.—P.M.) SPRINGFIELD (Ill.) June 17.—The Democratic State Convention today nominated the following ticket:

Clerk of the Supreme Court—John L. Pickering of Springfield.

State Treasurer—George W. Dudley of Chicago.

Superintendent of Public Instruction—Anson L. Bliss, Hillsboro.

Trustees of State University—Dr. Julia Holmes Smith, Chicago; J. A. White, Urbana, and S. S. Peyton, Monmouth.

Appellate Court Clerk, Third District, J. H. Baker, Sullivan county.

John P. Hopkins was re-elected chairman of the State Central Committee, after a bitter contest with Carter H. Harrison of Chicago.

The election of Chairman Hopkins produced the only fight in the convention, but it was stirring enough to make up for the tameness that characterized the other proceedings of the convention. The day was full of clashes between Hopkins and Harrison. The two men indulged in an acrimonious quarrel in the St. Nicholas Hotel during the morning session, which Hopkins bitterly resented criticisms made by Harrison of the campaign methods attributed to Hopkins by Harrison.

A minority report favoring the election of Harrison was made, and the fight carried to the floor of the convention.

The struggle produced wild excitement. Impassioned speeches were made in favor of both representatives and every Senator was received with applause and tumultuous hoots. The delegates at times were frantic, and critics highly personal were frequently exchanged.

The first question before the convention was the adoption of a minority report as a substitute for that of the majority. This was voted down by a yes and no vote. The roll was called, and the adoption of the majority report. On this Hopkins won easily, 582 to 397.

The Committee on Resolutions had a long and stormy session before its report was finally adopted. They were so long at their task that all the nominations had been made, and half the delegates had left the hall when the report was read and adopted.

The principal fight was over the principal plank in the platform as originally drafted. This read:

"The Democrats of Illinois, in State convention, declare their adherence to the fundamental principles of the Democratic party as laid down in the Declaration of Independence, the Constitution of the United States, and our last national convention."

This was considered by the opponents of silver as a too specific declaration in favor of the Kansas City platform, and they fought it. For three hours the debate went on, and the plank was amended to read:

"The fundamental principles of the Democratic party," etc., repeatedly affirmed by past Democratic conventions.

No effort was made to bring in the name of W. J. Bryan.

The Philippine plank, also produced a long debate, some members of the committee wishing to strike it out entirely.

The plank as adopted reads: "We are

The Allan liner Huronian, bound from Glasgow for St. John, N. B., sailed from the former port February 7, and nothing up to this time has been heard of her.

OPENING OF RESERVATION.

Grand Rush for Lands at Blackfoot.

"Sooners" Evade Police and File Claims.

Many Legal Contests, but None With Arms—Pocotello Mightily Interested.

(BY THE NEW ASSOCIATED PRESS.—P.M.)

BLACKFOOT (Idaho) June 17.—The Fort Hall Indian Reservation, including 418,000 acres, nearly 100,000 of which consists of fine farming land, was thrown open for settlement at noon today. Exactly on the hour of noon nearly 2000 people, old men, boys and Indians, who had been waiting eagerly, some of them for weeks for the opening of the reservation, rushed across the line in a wild scramble for land and mining claims. Every conceivable kind of transportation was used. Many had arranged for relays of horses in order to locate and get to the Blackfoot land office before others could file, paying as much as \$30 for the use of one horse for a few hours. At Blackfoot, long before the noon hour, immense crowds of spectators formed in front of the land office and in the windows and on the roofs of adjoining buildings, watching for the first arrivals.

J. R. Mullin and F. E. DeKay of Pocotello were the first to reach Blackfoot. Shortly after 1 o'clock the spectators saw a cloud of dust rapidly approaching on the road, stretching out to the southwest. Soon two more clouds of dust were made out, whipping and spurting, running neck and neck on the road. Exactly one hour and fifteen minutes from the time they had left Pocotello, twenty-six miles away, the Mullins and DeKays, leaping from their horses in front of the land office, Mullin securing the first position. Each man had used four relays of horses on route. They finished not more than fifteen feet apart.

In spite of the vigilance of the deputies and reservation police, many "sooners" succeeded in locating claims and everywhere that afforded a foothold. Before the train stopped they swarmed from the coaches like bees, and lined up with the others. Land attorneys were busy this afternoon investigating contests on these claims.

At 2:40 o'clock P. M. the train from McCammon, run for the benefit of those who had located on claims, arrived at Blackfoot over the Oregon Short Line. It was packed to suffocation. Men were on top of the coaches, on the tender, on the locomotive pilot and everywhere that afforded a foothold. by 418,000 acres of the Fort Hall Indian reservation, with the exception of the lands within the five-mile limit of Pocotello, which will be auctioned off a month from today. Nearly three thousand prospective settlers and miners gathered on the boundaries of the reservation, rushed into the reservation as the sun reached the meridian, and raced madly for favored locations, then as madly raced for the land office at Blackfoot.

Although the lands within the five-mile limit were not thrown open to settlement today, yet they were open to location under the general land laws, and in consequence the hills east of Pocotello, where it is known copper and other minerals are to be found, were soon swarming with prospectors.

"Sooners" simply swarmed over the reservation in spite of the utmost vigilance of the police and deputies, who drove out scores, other hundreds of getting into the reserve long before the hour of opening arrived, and many men, after making the race to Blackfoot to file their entries, found that the lands they had run for had been pre-empted by parties who could not possibly have remained off the reservation until 12 o'clock today.

The chief interest in Pocotello centered in the mineral lands, and probably within six or seven miles of the city today. Probably half of those who went to the city waiting for the opening, hundreds had disappeared, and those who took part in the mad rush found "sooners" in all parts of the reservation.

There were many exciting races for favored locations. One man made the race from McCammon to the extreme southern border of the reservation to the land office at Blackfoot on horseback a distance of forty-five miles, in two hours, 30 minutes, using a relay of four horses. He reached the office only to find that the homestead he wanted had been pre-empted by a "sooner." There is very general complaint that the police regulations were anything but efficient.

THE PLAYHOUSE

LOS ANGELES THEATRE

Uncle Tom's Cabin

Warren & Day "Original"

the Los Angeles Theatre

Mrs. Stowe's powerful but fanciful novel has been given dramatic versions during thirty or forty years. The knowledge how many Uncle Tom's companies there are on the memory of the average man, and to the time when the all sorts of exaggerations down the land with Uncle Tom's Cabin, bloodhounds, log cabins and so forth, adding to the nations—to use a figure of speech—to use a figure of speech.

As presented by the aggregation, "Uncle Tom's Cabin" is strictly original comedy in five acts, and as such to finish. There is not a nor situation in the play as by Messrs. Warren & Day's coterie of comedians.

To dwell upon the humor of this remarkable production is a work of supererogation. The world is inadequate to convey the impression of the comedy. The play is so well appreciated.

In the matter of the production is a little story of the features, too numerous to mention, which more than make up for the deficiency.

It would be useless to analyze the work of the comedians. To do justice to the large and varied repertoire would be impossible.

It would be well to say that the comedy is a masterpiece of the stage and the comedy is a masterpiece of the stage.

The engagement will be given this evening.

BREACH IN CHURCH

Evangelist Munnell

announces the Theology of the Methodist Church.

THE NEW ASSOCIATED PRESS

CHICAGO, June 17.—The higher critics of the Methodist church and the exposé of the liberal Bible has been written by Rev. W. L. Munnell of Chicago, Pa., who, in a scathing address, denounced many of the church and preachers of the church and criticism was styled by the un-Methodist, un-Bible and un-Christian.

President Little and the Garrett Biblical Institute and the school of Theology were particularly attacked, and the name of the "prominent" was declared to be the "chief cause."

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Money for St. Mary's.

The gross receipts for St. Mary's parish annual fair, recently held in Turney Hall, were \$1182, the expenses were \$287, leaving net receipts of \$895.

Camp Meeting.

The Free Methodist camp meeting will commence this evening in Encino Grove, to continue until June 29. Four services will be held each day, beginning at 8 o'clock a.m.

Wireless Operator.

W. R. Carroll, who is to be operator of the wireless telegraph station at San Pedro, arrived yesterday from Honolulu, and went at once to the Harbor City. He is an experienced Marconi man.

Priest's Ordination.

The ordination of Rev. Edward S. Brock, S.J., a former Angeleno, will take place in the church of the Sacred Heart, Woodstock, Md., Saturday, June 23, Cardinal Gibbons officiating. John J. Brock of this city has gone East to witness the ceremony of his brother's ordination.

Sociality Picnic.

The Young Ladies' Sociality of St. Vibiana's Cathedral has elected as president, Miss Sara Norton; vice-president and secretary, Miss Elizabeth Klinkhamer; treasurer, Miss Frances Molony; organist, Miss Rose Bernard. The sociality has adjourned to meet in October, but will have a picnic for members and guests at Terminal Island and the Fourth of July.

Pleasant Men.

W. H. Preston, president of the Los Angeles Credit Men's Association, received a telegram yesterday from William A. Fendergrat, secretary of the National Association of Credit Men, stating that the Ray bill has passed the House, and that there seems every assurance of its passing the Senate. This bill has been introduced by the associations of credit men throughout the country, and the Los Angeles association has been instrumental in aiding it.

Heartless Driver.

Edwin Karquist, a young man residing on Shatto street, and employed by Banks & Green, Nineteenth and Main streets, was out with a light delivery wagon yesterday, and at Thirty-first and Main streets was run down by a heavy ranch wagon and hurled to the street, where he lay for some time dead. The heartless driver of the large wagon hurried away and the detectives are looking for him. One of the young Karquist's legs was fractured and an ankle crushed.

Biological Meeting.

The last meeting of the biological section of the Southern California Academy of Sciences for the current year was held last evening. Prof. B. M. Davis was elected president, and Prof. C. A. Whiting for secretary. The lecture was by Dr. H. B. Barry of the University of California, on "Biological Laboratories." He gave a detailed explanation of his researches, which are in progress at the biological section at San Pedro. The lecture was clearly illustrated by black-board drawings, and was listened to with interest.

New Holiness Chapel.

The Holiness Church recently sold its property on East Ninth street to the Huntington-Hellman syndicate, and bought a more desirable lot at East Ninth and Hawthorne streets. Here they have built and dedicated a pretty little chapel, and tomorrow at this place will be held an all-day meeting of the seven Holiness churches of Los Angeles and immediate vicinity. On the fourth of July the Holiness people are to have a grand all-day rally at the Downey camp grounds, two miles southeast of Downey, and their annual camp meeting and business conference will be held on these grounds, beginning August 3 and lasting seventeen days.

Scholarship for Zita Bailey.

The story of a bright, young girl's heroic struggle for an education, as delineated in The Times last Monday, and the subsequent letter from her classmates, describing her unselfish relinquishment, in favor of her dearest friend, of a proffered scholarship for the State University, has awakened widespread interest; and an organized attempt, endorsed by the High School faculty, is being made by the young women of the High School, and by other friends of Miss Bailey, to raise \$500 among the people of our city, to pay her expenses at the University of California for the next two years, after which time there is a reasonable hope that one of the regular Berkeley scholarships may be available. An appeal is made to the generosity of the friends of education to contribute to this cause. All contributions and inquiries should be enclosed in an envelope, and be addressed to W. H. Hough, principal, the High School, or Miss Grace Kingsley, Board of Education, 610 Laughlin building, and the words "For Zita Bailey Scholarship Fund" should be written on the envelope enclosing same.

BREVITIES.

Times' Prize Cookbooks. The series of prize recipe contests is closed for the present. All the recipes brought out by it, some 450 in number, by California housekeepers, and including directions for cookies, puddings, salads, pies, picnic luncheons, Spanish dishes and citrus and other fruit preserves, are now printed in the form of a 60-page cookbook, and for sale by the Times and its agents at 15 cents per copy, 4 cents extra if mailed. Send orders at once.

Dental Work. Before going elsewhere come and get an estimate from us. We do first-class work at reasonable prices. Our operators are men of experience. BEDOUINS RACE ACROSS THE CHANNEL.

MEMORABLE TRIP TO CATALINA ISLAND AND BACK.

Visiting Shriners to Number of Eight Hundred Given Royal Entertainment and Go Home to Sing the Chorus of Our Southland.

Joking, laughing, cheering, about a thousand Shriners and ladies took to Catalina yesterday and closed their five-day round of pleasure in Southern California. Today they will scatter for distant homes with regrets only equaled by those of their hosts.

Catalina capped the climax and the visiting Nobles are simply raving over Southern California. It was the universal verdict that yesterday's excursion and the evening reception were the greatest social events of the pilgrimage of 1922. The programme which closed last night contained not one untoward feature, and the Nobles of Al Malakiah are entitled to congratulation and praise for the happy outcome.

Yesterday's excursion drew out a crowd of a few over 800 by actual count, notwithstanding the late adjournment of the reception. The contributing conditions approached the ideal and well-formed plans worked out to perfection. Departure was made shortly after 8 o'clock in a palatial special vestibuled train over the Salt Lake Route, and the happy throng arrived back in Los Angeles at 10:30 p.m., the run each way being made without stops. General Passenger Agent Gillette personally supervised the service, and in addition graciously dispensed liquid refreshments on the train.

The schooner Brooklyn and the steamer Warrior, specially chartered for the Shriners, were in waiting at San Pedro, and at 2:30 p.m. the big party was on the briny. With a calm sea the run was made in good time and with the minimum of delay. Both boats landing at Avalon at noon. Then there was a rush for lunch, and refreshments and refreshments were swamped with hungry Nobles. Three times the big dining-room of the Metropole was filled to its capacity, with many strangers.

SAW ALL THE SIGHTS.

After dinner the sight-seeing began all of the manifold attractions of the "magic isle" being open to the excursionists without price. The schooner Brooklyn carried a big load to Sea and Church rocks, and launches were available for trips by smaller parties to go to the Lighthouse, Moonstone Beach or any other point along the coast. At the hotel the Catalina Band entertained the party for an hour after lunch, and the visitors enjoyed ping-pong, billiards and other games on the beach, the launching and churning of a side-wheeled glass-bottomed boat, and a large crowd of scores of the pilgrims took a dip in the bay, and as many went out in launches and were being entranced by the submarine gardens.

At 4 o'clock, when almost everybody had returned from the shorter trips, dancing began in the pavilion and continued until 5:30. Dinner was then served at the Metropole, and at 6:45 the homeward voyage began. The moonlight journey furnished a little excitement and was one of the most pleasant features of the day. The two boats left the wharf together and steamed out of the harbor side by side. It soon developed into a race, and for five miles the steamers were neck and neck, and not 100 yards apart. The passengers cheered for their own boat, and hurried warm joshes at each other across the narrow space of water between them. Finally, with their passengers singing in chorus, "Good-by, My Lover, Good-by," the larger Brooklyn drew away from the Warrior and made East San Pedro a half-mile in the lead.

IMPERIALS LEAVE TODAY.

The excursion was in charge of Imperial Marshal Fred A. Hines, who escorted Imperial Potentate Henry C. Akin and party of twenty nobles and ladies, as follows: Past Imperial Potentate Lou B. Winsor and wife, Past Imperial Potentate E. F. Allen and wife, Imperial High Priest and Promoter W. M. Clayton and wife, Potentate B. P. Thomas and wife, Charles A. Tracy, wife, Judge J. W. Jones and wife, W. Y. Teetzel and wife, W. L. Perkins and wife, Frank O. Evans and wife, O. F. Sinclair and wife, Dr. A. D. Stewart, C. S. Stobbingler, H. W. Van Sickle, Mrs. G. W. Nickerson and Miss Jessie Youle.

Today the Imperial party will attend the funeral of the late John T. Woolley, who was a member of Tangle Temple, No. 2, at 10 o'clock. After the funeral they will depart for the north on their special car, which will be attached to the "Owl" train. A day will be spent in San Francisco and they will return east over the Northern Pacific, after visiting Spokane, Portland, Seattle, Tacoma and Helena, Mont. It is planned to arrive in Omaha not later than July 1.

Imperial Marshal Fred A. Hines, who has directed the entertainment on behalf of Al Malakiah Temple, of which he is Potentate, will accompany the Imperial party as far as San Francisco. There he will join his wife and they will go to Lake Tahoe. Mr.

Hines' arduous labors have almost broken him down, and he will spend several weeks recuperating in the north.

COL. AKIN ENTHUSIASTIC.

Returning last night the Shriners were unanimous in their praise of Southern California and her hospitable people and regret that the visit needs be so brief.

Imperial Potentate Akin was enthusiastic over the reception accorded the Shriners and the country. He said: "This is my first visit to Southern California, although I have read much of your country and have for a long time wished to visit it. It exceeds the utmost limits of my imagination. This portion of the Golden State has furnished constant revelations, wonderful and beautiful. We are charmed and delighted. Noble Hines and his associates have been so thoughtful for our comfort and pleasure that we have had most exceptional opportunities for enjoying everything. Personally, I have been received with so much cordiality that it has made the visit one of a lifetime. I never to be forgotten. You certainly have a whole-souled and generous people in Southern California. I know all the other nobles feel the same way—we are overflowing with feelings of friendship and gratitude for our delightful reception."

Imperial Representative Charles A. Tracy said: "Every Shriner is delighted with Southern California. We have not only been royally entertained, but we have been charmed by the country, climate and the people. The trip is one we'll remember as long as we live."

FIRST GUN
OF CAMPAIGN.

Fourth Ward Republican
Club's Rally.

Able Speakers Start the
Ball Rolling.

Frank Dominguez Sheds Light
on the Situation in the
Philippines.

The Fourth Ward Republican Club is the first political organization in the southern part of the State to unlimber its guns for the coming campaign. The first shot was fired last night at a rally in the wigwag on Figueroa street just below Eleventh. The large tent was filled with Republicans, not only from the Fourth Ward, but from other parts of the city. Much enthusiasm was manifested.

While it was primarily a business meeting to perfect the organization of the club, there was also some interesting campaign speaking. The principal orator of the evening was Frank Dominguez, Esq., of Manila, who is paying a brief visit to his old home in Los Angeles, and whose eloquence has been heard at many Republican campaign meetings in Southern California heretofore.

Owing to his former official connection with the Taft Commission in the

attained their majority, and they can be won by good hard work, but the one important thing is registration. Observe that yourselves and get others to do the same."

OLIVER ON PROSPERITY.

A strong speech was made by Byron L. Oliver, who showed by some telling figures that the last six years have been far and away the most prosperous in the country's history. "It is too early yet," he said, "to tell just what the issues of the coming campaign will be, but we know that there is one issue underlying all subtleties which cannot be avoided, and that is, whether or not we shall continue to enjoy the prosperity that has been ours ever since William McKinley was elected to the Presidency six years ago. Every one that wants to be prosperous now, and since the acquisition of the Philippines a new era has dawned for the American people. California has a great future before her filled with almost unlimited possibilities of commercial greatness and advancement. The best men in the country are for the retention of the islands; the Republican party realizes that it would be disastrous to abandon them, and through that alone, united and working in harmony, can we expect to accomplish that which our martyred President, the late John McKinley, set out to accomplish."

DOMINGUEZ ON PHILIPPINES.

In introducing Frank Dominguez, President Cochran paid him a graceful compliment, and reminded him that the ten-minute rule would not be enforced in his case. He invited him to speak as long as he felt inclined—the longer the better.

The audience applauded heartily as Mr. Dominguez stepped upon the platform, and listened with close attention to his interesting account of affairs in the Philippines and his eloquent defense of our civil and military administrations in the islands. Referring to the political issues involved in the coming campaign, Mr. Dominguez said:

"The coming conflict will be waged on the question as to whether our flag, planted on Philippine soil by our soldiers, at the cost of much blood

"It is not a question of 'scuttle.' It is a moral obligation which will be kept sacredly by our government. 'Make Aguinaldo dictator, and what would result? Murder, plunder, and the decapitation of a million heads; that would be the result, if we were to withdraw and let Aguinaldo set up an independent government."

"Our flag is there, and has been planted securely by brave men, many of whom gave up their lives in putting it there. Slanderees and cowards here at home have maligned and vilified those men and our flag. It is enough to make the blood boil to hear our army thus defamed."

Mr. Dominguez then paid a high tribute to the splendid American who are governing the Philippines in principles of enlightenment and justice. He spoke with enthusiasm of the statesmanship, honor and ability of Gov. Taft, whom he described as one of God's noblemen who could be trusted with the utmost confidence to bring order out of chaos. He also paid a high compliment to Gen. Luke E. Wright, the acting civil governor of the Philippines, whom he described as a grand old Democrat. The reference to the names of the two men was warmly applauded.

Speaking of the commercial importance of the Philippines to California, Mr. Dominguez said: "California, our noble State, standing at the gateway of commerce between the nations of the Orient and the nations of the Occident, shall receive the benefit of the commerce of the Philippines Islands. Our merchant marine shall soon be traversing the Pacific seas, and there shall be rest on the largest waters of the Golden Gate, rich cargoes laden with the wealth and splendor of oriental Babylons."

To reap these benefits there is no other course to pursue than to support President Roosevelt and the Republican party and the men guiding the ship of State in the archipelago. It is not only the duty of the Republican party, but the duty of the nation, not only to support Theodore Roosevelt, but the civil and military government of the Philippines. Our flag is there to stay. The islands are ours by conquest and the payment of \$20,000,000."

ARMY DEFENDED.

The speaker declared that the present opposition to our authority in the Philippines came only from brigands and thieves who were fighting, not for liberty, but for loot.

"Peace was restored when I left Manila," Gen. J. M. Smith, the great old soldier, whom vipers at home charged with murder, piped out the words. "I have descended in Samar, and he did right. (Great applause.) War does not consist of shaking hands with your foe, while he is stabbing you in the back. I am not signing a peace treaty with the enemy. I am clearing the soundness out of that island, and he did right. (Applause.)"

"The best cure for the 'Aunties' is to travel and find out the facts. It beats the water cure. (A voice: 'Take them back there with you, Frank!') If I did, I'd work the Maine racket on them; they'd never get there." [Applause.]

"I've seen reconcentrated camps. I don't know whether they were like Weyler's in Cuba, or like the Philippines did what Weyler did in Cuba, then I am a Weylerite."

Mr. Dominguez then made a humorous contrast between Aguinaldo and George Washington. He said Washington must often have turned in his grave on account of having Aguinaldo likened to him.

"Think of Aguinaldo, that insignificant little man, plunderer and murderer of Gen. Luna! Our own Gen. Olin drove him up beyond Calocan. Think of his continuous and continual retreat with his bull cart laden with Mexican dollars, the stolen property of the people!"

"I am a strong supporter of the military forces in the archipelago. I would leave Gen. Chaffee there in charge and give him the men all the way. We are in a position we cannot get out of. There is no honorable retreat. The flag of our country will never be stained with dishonor by the votes of the people of this country. (Applause.) The flag will say: 'We shall support you not only with our votes, but with more men, if need be, and millions of money.'"

"From Gen. Chaffee, down, our fighting men in the Philippines have been maligned and slandered without reason. Right and wrong have been confused and the heroic battles fought in the war of the rebellion were sent to the Philippines, where they fought to maintain the honor and glory of the republic upon the heroic battlefields of Luzon. I have talked with military men in the islands, and I know personally from their own lips, and from the records, that no braver nor grander soldier ever trod the soil of the Philippines in the defense of our flag and country, and who by his heroism and tact added lustre to our arms and fame to our country. (Applause.)"

"The maligners and defamers of our army and its commanders will persist from the earth and be buried in the oblivion of centuries when the fame and glory of these brave men will be honored by our posterity." (Great applause.)

INDEPENDENT ACTORS.

Organization Formed for Purpose of Securing Bookings Without the Assistance of the Theatrical Syndicate.

NEW YORK, June 17.—An organization was effected here last night to unite individual theatrical managers of the country for the purpose of securing bookings independent of the so-called "theatrical syndicate."

It is called the Independent Booking Agency. The agreement upon which the new agency was established was entered in today by Harrison Gray Fiske, Morris Campbell and James K. Hackett.

The organizers disclaim any intention to enter into competition with existing booking combinations. They say they have united to form an agency for the purpose of securing outside attractions may secure bookings independent of the existing combinations, and that the independent agency is not formed for pecuniary gain.

The independent agency begins with eight attractions in its books, including Mrs. Fiske, Henrietta Crossman, James K. Hackett, in "The Crisis," and Isabel Irving in a special company for "The Crisis."

His Worst Action.

Avery Badden: What was the meanest thing you ever did? "I was a Goodman Groggins. The thing I've always hated myself most for was getting mad at the barkeep once and throwing a glass of beer in his face. It didn't hurt 'im any and it wasted the beer." (Chicago Tribune.)

The Garven Brothers' department store at Strassburg, O., was destroyed by fire yesterday. Loss \$100,000. It is thought that the fire covered a robbery. While the members of the firm were fighting the blaze, their home was looted.

WHOLESALE HOUSE
SMOKE AND ASHES.

Heywood Brothers and Wakefield Company Furniture Establishment Burned, Entailing Heavy Loss—Water the Crying Need.

THE large wholesale furniture establishment of the Heywood Brothers & Wakefield Company at the southeast corner of Seventh and Main streets, a branch of one of the greatest furniture companies in the world, was destroyed by fire last night. Of the good four-story brick building, fully stocked with the finest of furniture, nothing remains except the four walls and the lower floor. The contents of the first story are almost ruined by smoke and water. The total loss is from \$140,000 to \$150,000. The origin of the fire is not known. There were only one or two places in the entire establishment where fire was used in the work, and these were gas burners used to heat the varnish in the finishing department. They were not in use during the later part of the evening. Employees of the company, who are familiar with the construction of the building and the distribution of the various departments, are of the opinion that the fire originated from spontaneous combustion in the varnish-room.

WATER SHORTAGE.

By the time the first fire companies reached the scene the flames were bursting from the front windows at the top of the building. Had the department been equipped with a water tower, so it could have directed a large stream into the heart of the blaze at the start, the loss would have been comparatively slight, but the engine companies which took water from hydrants above Seventh and Main streets nearly cut the supply from the engine south of Sixth street, and the result was such a scarcity of water that the fire got a start which could not be checked for hours.

As the fire spread, the firemen could do nothing. The Chief ordered the combination of the several streams. Silenced couplings were used and two or three streams were combined and directed against the fire on the upper floors. Meantime the flames had eaten their way through the top floor to the rear of the building, and dropping through an elevator shaft, ignited the third floor. The second and third floors and endangered the buildings in the rear. To save these the firemen laid lines of hose over them and wetted adjacent structures.

An hour after the fire was discovered it was seen that it would be confined to the building in which it originated, and the work of the firemen was directed to saving the lower floors. As first it appeared that the fire would be confined to the two upper stories. The flames crept into the second story through an elevator shaft, and before the third floor had been touched by the flames the second story was burned out. This communicating with the second floor and spreading to the front left only the ground floor untouched by the flames.

It was not until three hours after it started that it was under control, and then the three upper floors had been practically destroyed.

LIVES RISKED.

Handicapped by scarcity of water and unable to reach the heart of the flames with the stream, the firemen tried to take their lines into the interior of the upper floors. This work was continued, the men risking their lives. Falling cornices menaced the firemen every minute, and more than once men were knocked off their ladders, but by good luck no one was seriously hurt. The cornices fell while the firemen were working, and good, the police being kept out of harm's way. At 11 o'clock the danger of a spread of the flames was past, and the firemen could direct their efforts to the one building on the south is the big furniture establishment of Hulse, Bradford & Co., but the heavy fireball between the two buildings saved that concern.

At 1 o'clock this morning two engines were at work, and they will probably be kept there until noon today. The ruins will likely smoulder for days, and it may be necessary to keep firemen there until tomorrow or later.

GOODS SAVED.

Gustav E. Denner, manager of the Los Angeles branch of the Heywood Bros. & Wakefield Company, was not in the city yesterday, and did not know of the fire. R. F. Skellenger, assistant manager, was on the ground a short time after the breaking out of the conflagration, and with a number of assistants succeeded in saving most of the records of the company. All books and papers of value that were not contained in the fire-proof safe were carried off to a place of safety. Mr. Skellenger left the building at 6:30 o'clock, when everything on the office floor, apparently, was all right. The fifty workmen, salesmen and clerks employed in the establishment left at 5:30 o'clock. The assistant manager was satisfied from the brief investigation he was able to make last evening that the fire started in the finishing room on the fourth floor, in the west front of the building.

"We carried a stock of about \$125,000," said Mr. Skellenger, "although I am unable to give the exact figures. The loss probably is total, and is fully covered by insurance, which was placed by the San Francisco office, headquarters of the Pacific Coast branch. In the past two weeks we received ten carloads of furniture, of all kinds, all of which was in the building when the fire started."

"I cannot explain the origin of the fire, unless it was from spontaneous combustion in the varnish room on the fourth floor."

FULL OF FURNITURE.

The four floors of the large building were full of furniture. On the first floor were the offices and sample rooms, with their costly displays of finished rattan and general furniture; chair stock, set up, but not finished, was stored on the second floor; the third floor was piled high and solid with furniture just as it had been received from the factory, and the top floor contained stock that was in course of finishing. No manufacturing is done at the Los Angeles branch, the furniture being shipped here in parts, and fitted together, varnished and made ready for the market. The Heywood Company moved into the present quarters in March, 1900, just after the completion of the building. Twelve years ago the same company suffered a heavy loss by fire at its warehouse, corner College and North Main streets.

ONE OF TWELVE.

The Los Angeles branch of the Heywood Company is one of twelve in the United States and England. There are two warehouses in New York City, and one in each of the following cities: Boston, Philadelphia, Baltimore, Buffalo, Chicago, San Francisco, Portland, Or., London, Enns and Liverpool, Eng. Factories of the company are located at Gardner and Wakefield, Mass., Chicago and San Francisco.

The burned building, a four-story brick, was completed early in 1900 by O. T. Johnson, at an approximate cost of \$35,000. It has a frontage of 100 feet on Seventh and 140 feet on Main street. Little of it is left but the walls, but it was impossible last night to estimate the loss, which is fully covered by insurance.

BUNCOING HORSETHIEF.

"Works" a Blacksmith and a Liveryman on Stolen Rig, Which He Fails to Claim.

The detectives are looking for a combined horse thief and bunco man. Last Saturday night he stole a horse and buggy from G. H. Schildwater at Compton. The loss was duly reported and the officers in Los Angeles were instructed to watch for the outfit. Yesterday a stranger drove up to the blacksmith shop of Wilson Bros., Boyle Heights, and asked that his horse be sent back. Instead an officer came, telling the blacksmith that the rig was stolen property. Now the officers are looking for the horse thief, the dollar and the two rugs which were in the buggy.

FOURTH OF JULY COMMITTEE.

The Fourth of July Committee of 1902 held its first meeting last night in the Mayor's office and elected its sub-committees. The committee chose Joseph Scott secretary and E. S. Sullivan treasurer.

The following are the sub-committees: Fireworks, A. M. Edelman, chairman; Joseph Scott, E. S. Sullivan; Finance, E. S. Sullivan, chairman; C. W. Hyatt, Joseph Scott, Lillian and M. J. Hyatt, Joseph Scott, chairman; A. M. Edelman, C. W. Hyatt; Decoration, A. M. Edelman.

There will be no parade on July 4. In the afternoon the literary and musical programme will be rendered, place not yet selected, and at night an exhibition of fireworks will be made. The main streets will be decorated.

This year's committee begins its work with a balance of \$188.69 from last year, and is composed of the same members who planned the last celebration.

The next meeting will be held the night of June 24, when final plans will be perfected.

BOTHERED BY SHYLOCKS.

Western Union Telegraph Company Discharged Operators in New York Who Had Been Seeing Their "Uncle."

NEW YORK, June 17.—[Exclusive Dispatch.] From a high official of the Western Union Telegraph Company in this city, it is learned tonight that the discharge of old operators which has been steadily going on for over a week past is due to a dire on the part of the company to forever end the practice of employees borrowing money at enormous rates of interest from New York shysters, or as it has been the practice of the company heretofore to honor orders for salaries presented by shysters, but the proceedings have come to be a great nuisance.

Recently one of the best-known shysters on Park Row died, leaving many unsettled accounts of telegraph operators. His heirs have given the company no peace in efforts to collect the claims, and this has led to many charges. Many of the men removed are among the best operators here, and it is generally understood that they will soon again be employed either here or in near-by cities. The demand for operators is greater than the supply, but above all, at the present time, is the desire to abate the shlock nuisance.

MODEST PASTOR THOMPSON.

CHICAGO, June 17.—The Rev. John Thompson, pastor of Centennial Methodist Church, Rockford, Ill., has declared that he will never use the title of Doctor of Divinity which was conferred upon him last week by Taylor University. "In my judgment," said the pastor, "the degree of Doctor of Divinity, should be reserved for men who have displayed extraordinary scholarly attainments and have achieved great things in their work."

ill, which represents a great investment of capital, has been viewed for permanency, combined with efficiency. No expense is spared to assure any of these things in the old structure only of brick chimneys. The use of this is no longer used as a rule, but is preserved as a memorial to the memory of the old days when it was wiped out by fire on September day in 1891. The new structure every precaution has been taken to guard against the occurrence of a fire disaster. The new structure is a spacious four-story building, containing a large hall, with a staircase leading to the roof, and a large hall on either side. The building is lighted and ventilated with electric lights and fans, and has a fire escape on each side. The danger of dust explosion is entirely removed by the use of an ingenious system of dust collection, which prevents the accumulation of dust in any part of the building.

PERFECT FLOUR MILL IN FULL OPERATION.

Resumption of Business by One of the Leading Manufacturing Concerns of Los Angeles—Farming and Milling Company's New Plant.

where it is finally packed ready for the market. A technical description of the machinery and manifold processes employed in the conversion of wheat or corn into flour or meal would not interest the lay reader. Suffice it to say that in the main warehouse of the Los Angeles Farming and Milling Company, the wheat is dumped upon an endless belt, 150 feet long and fourteen inches wide, which operates beneath the floor and conveys the grain through a tunnel under the railroad track, into the basement of the mill. Here it is caught up by the buckets of an endless chain elevator and hoisted into the hopper scales on the first floor, where it is weighed, 40 bushels at a time. From the scales it goes to the cleaning department, where it is run through a series of receiving separators, where all the coarse dirt, straw, chaff, immature grains, etc., are eliminated. Next it goes into the storage bins, to be diverted thence as fast as needed into the milling separators, where more dirt is taken out. Then the scouring machines take up the cleaning process and pass it on to other bins, where the proper degrees of heat are applied to kill the germs and bring the grain to the right temperature for best milling results. Before it reaches the rollers which do the grinding, it is subjected to still more scouring and separating by being passed over rolling screens. All the dust that is raised by these scouring processes is collected in the air-

the mill, and it is intended to install additional machinery as soon as the condition of the trade will require it. The company has warehouse facilities for storing 120,000 sacks of grain; also storerooms for vast quantities of flour and other finished products and commodious offices. The company has resumed manufacture of its well-known standard XXXX flour, also two lower grades, and "Bakers' Extra," as well as very superior corn products, and every other kind of meal and feed stuffs. The officers and managers of the company are too well and favorably known to require extended notice, having for many years been at the head of the milling business in Los Angeles. All the old employees of the company at the time of the fire have been retained in service. Some of them have been with the company from the beginning. With such magnificent equipment and such experienced men to run it, it can be safely predicted that the new mill will turn out products equal to, if not superior, to any mill stuff manufactured on the Pacific Coast.

CLAIMS OF TRUMBO ARE DISALLOWED.

GOLDEN CROSS MINE RECEIVER HAD LARGE ITEMS. Over Eighteen Thousand Dollars Rejected by Court at San Diego—Miss Gassen and Capt. Fleming Have a Military Wedding.

(SPECIAL CORRESPONDENCE OF THE TIMES.) SAN DIEGO, June 17.—[To the Editor of the Times:] The hearing on the reports of Isaac Trumbo, as receiver of the Golden Cross mines, begun yesterday, was very interesting as related to expenditures incurred by Trumbo and his loose method of accounting. The gravity of some charges against Trumbo give a very serious aspect so far as he is concerned. An item of \$800.75, designated in the report as a personal account of the receiver, was disallowed by the court. Today Judge Torrance ruled in a similar manner on items aggregating about \$10,000, represented by promissory notes given by Trumbo to the First National Bank of San Francisco. When Howard Baker, the mining company's book-keeper took the stand, it was developed under examination by the opposing counsel that Trumbo, when in San Francisco, would draw checks against the Golden Cross account, and return no vouchers to account, and that the same would result to the expense account. In some instances the money was expended for merchandise and articles for household use delivered to Trumbo's residence, and never reached the mine. It was shown that Trumbo took dinner with a friend at the Van Nuys Hotel, Los Angeles, and to pay for it, drew a check against the mining company for \$25, and put the change in his pocket.

MILITARY WEDDING.

The most notable wedding in many years took place this evening when Miss Mabel Gassen and Capt. Adrian Fleming were married at the residence of the bride's parents, Col. and Mrs. A. G. Gassen. It was a military wedding. Bugles announced the approach of the groom and brides, and Capt. Fleming's command the One Hundred and Fifteenth Company of Coast Artillery, stood at attention during the ceremony, which was performed by Rev. Father Ubach on the lawn of the

Gassen home. Many army officers were present. J. D. Norton is here from Lower California, where he is interested with T. Morris Flower in the Guadalupe ranch. They have about three thousand acres of grain in, but do not expect a crop, as a result of hot, dry weather. Norton says almost every blade of grain has been withered. Nature had been against the farmer the entire season. They expect a small amount of hay, but that is all. The only thing that can be done, according to Norton, is to turn a lot of stock into the fields, which will furnish some grazing, from the remnants of what might have been a good crop of grain. The Mexican Land and Colonization Company has secured from the Mexican government the fishing privileges around Coronado Islands and will police the surrounding waters and prevent all market fishermen from poaching. The intention is to conserve for the benefit of the San Diego residents and visitors the fishing and camping privileges. Much interest is taken in pumping operations at the St. Nicholas mine in the Real district. Almost all the water is out, and it is believed a rich strike will be made when the mine is cleared. Before it filled fifteen or twenty years ago, ore was produced worth \$100 a ton.

A report is in circulation that A. G. Spaulding, the well-known manufacturer of sporting goods, is to build a \$75,000 yacht for his use in Southern California waters. Mr. Spaulding makes his home on Point Loma. Frederick Ward, the actor, was tendered a reception by the local Elks last evening.

LETTERS TO THE TIMES.

The Times freely publishes the views of correspondents, without holding itself responsible for the opinions or statements of writers, and is not to be held responsible for the accuracy or the character of the material. The space of 200 words, on the average, is sufficient for the expression of an idea.

For Reciprocity With Cuba. VERDUGO, June 16.—[To the Editor of the Times:] The writer desires the privilege of expressing briefly in your columns, ideas in regard to the proposed reciprocity treaty with Cuba, which, he is aware, do not seem to agree with the popular local view of the subject. He believes that President McKinley was, and that President Roosevelt is, right in this matter, that the declaration of the Republican national platform on the subject of reciprocity in general, should be carried into effect by the Republican party at the present time, by granting a reduction of 20 per cent. of the tariff on products imported from Cuba in return for favors received under the "favored-nation" theory. The arguments advanced against the proposed legislation in favor of Cuba, appear to be only two in number: that the sugar trust would reap all the benefit, and that damage would result to the best-sugar industry. The first of these is disposed of by President Roosevelt in his special message upon the subject, in which he says that "provision can and should be made that will guarantee against this possibility." Republicans who use this as an argument, are adopting from Populism its stereotyped objection to the protective tariff which has been urged against every effort made by legislation to build up our industries, and which means, when reduced to an every-day phrase, "You must not do anything that will help people in general, because the most of the benefit will be received by somebody in particular." The writer does not wish to see any injury wrought to the sugar-beet industry, nor can he see how it possibly can be injured by the mere reduction of 20 per cent. on the relatively-small amount of sugar produced in Cuba. The fact should be known to all who wish to have an intelligent opinion upon this subject, that the estimated consumption of sugar in the United States for the current year, is 2,555,000 tons, while the crop of Cuba is placed at 800,000 tons! If the best-sugar industry is seriously threatened by the proposed slight reduction in the tariff on this product, so that it cannot stand the closer competition implied thereby, it is certainly apparent that the enthusiasts over the future of the best-sugar business, who prophesy that the United States will be a United States (or California), can produce all that is required for home consumption, are more dreamers of idle pipe dreams, by their own argument, already numbered!

Neither is the writer unable to divest his mind of the idea that the best-sugar combination in the United States is something of a trust, also. It was brought into being by a bounty of 2 cents per pound on its output, and its existence was "threatened" when that bounty was removed. It was "threatened" again when Hawaii was admitted to our Union, but still persists in prospering. And it does prosper; it produces sugar at an actual cost of 4 cents per pound laid down in New York, and the cost to the consumer near the factory is 4 1/2 cents—5 cents, indeed, until very recently. It is an industry that thrives when threatened. The writer regrets that our representatives from this Coast are lined up against the President's policy of local prejudice, when they are almost unanimously in favor of free silver, fancying that it "threatened" a local industry. Our Senators, in joining the "insurgents" of the upper house, are no doubt sincere in thinking that they are carrying out the wishes of their constituents, and are opposing the President and the majority of their party colleagues, but it seems to the writer that they would be rising nearer to the level of statesmanship in the company of Aldrich and Cullum than in the company with those who consort with Mason and Wellington. "Queen Quality" Shoes for Women

We Are Sole Los Angeles Agents.
Stylish graceful footwear means much to the proper showing of a handsome gown. Then again, comfort in shoes is a potent factor in keeping the wearer good natured; but the most salient point is to combine all the good qualities of the shoe itself with the economical requisite—price. When all is done—the one make of shoes that suggests itself is "Queen Quality"; a make of shoes which sells the world over at \$3.00. Such a popular price commands itself to women who have a care for saving money, and we are satisfied that "Queen Quality" shoes will meet your approval and give you complete satisfaction. We describe below a few of the most popular styles.

Continuation of Foulard Silk Clearance.

The success of this great sale has been greater than we anticipated. And yet, doing full justice to feminine knowledge of merchandise values, the fact that nearly ten thousand yards of these superior Foulard Silks have been sold in the past two days, is not very surprising; for as an actual fact such matchless values were never before offered in Southern California. Foulards are so serviceable for general wear; and the present clearance prices so low—it is excellent business judgment to buy just as much of these silks at this sale as you can afford.

FOURTH FLOOR

Clearance of Mussed and Slightly Soiled Undermuslins Echoes from Great White Fair Sale

Taking into account the great volume of business done during this great sale—where customers had the privilege of handling the garments without restriction—the natural sequence is a large number of garments slightly mussed and soiled from handling. It will not be possible for us to place them back in regular stock, but they must sell now for what they will bring. Unfortunately for us, the number of exceptionally fine pieces in expensive undermuslins is in excess of the cheaper grades; but once laundered they will be to you equally as good as new. Then too, there are a number of broken lines—not many of any one style—that have been grouped into lots and given prices to close them quickly. So you don't want to miss the final wind-up of the good things where nothing more than a little musing and soiling places garments in your hands at much less than they cost us at wholesale.
